

Architecture In Helsinki, That Beep

beep beep beep beep beep

kid can you wake up
boy it aint long til the warning arrives
and its the shake up
thats got me waiting for your dynamite

i never knew your middle name
no need to play that game
i called your doctor up and he promised me shameless fun
tried a little bit of moving on
it lasts for way too long
dressed up as bubblegum
im stuck to your shoe lets run
can you give me that
beep beep beep beep beep beep....

two timing and you stayed at mine
these feet got left behind
we dive so deep we keep in touch with your burried bones
can i get a little fading on? (fade it fade it)
don't be long
dressed up as bubblegum
im stuck to your shoe lets run
can you give me that
beep beep beep beep beep beep....

cuz they mistake us for an 8 thats turning into a 9
said if i played the evil lord can i trade you for your aliby
done living like a runaway
break those hot so carefully
done living like a runaway
everytime that i turn around
i let you down, you read my mind
bring the beat back
beep beep beep beep beep beep....

you got that beep, that beep, that beep....
beep beep beep beep beep beep.....
