

Arcwelder, Lahabim

(w. graber)

And he says Lahabim (I will know)
And he knows what that means
I heard a wise man lie
He knows what that should mean
He was his right hand man
Fought for the good of man
I watched this wise man die
He knows what that should mean

[Chorus]
Lahabim
(Don't be sad)

The group of seven falls
And question who's to blame
I watched this river die
He knows what that should mean
He was his left hand fool
Fought for the good of man
I watched this wise man die
He knows what that should mean

[Chorus]
