

Area-7, Individuality

They always said that you
would never be anything
Everything you tried to do was
just a waste of time
but you believed you could do
anything you wanted to
you made your mind up
and you never looked behind

Dont let them try to tell you
how to live your life
dont let them hold you back
dont ever change your mind

chorus
Individuality
be proud of what you are
Individuality
dont let them cut you down
you can be whatever you want to be
but dont change your self for society
dont lose your individuality

The years go by and find that
nothing comes easily
and the world is full of people
tryin to take you down
dont ever turn your back on
anythin you'll ever be
you dont need to prove yourself
to anybody else

Dont let them try to tell you
how to live your life
dont let them hold you back
dont ever change your mind

chorus
Individuality
be proud of what you are
Individuality
dont let them cut you down
you can be whatever you want to be
but dont change your self for society
dont lose your individuality

There is no run for second best
no second chance dont fail the test
gotta rise above the rest
gotta try to make your mark
no need to be so vain
no need to act so proud
follow the trends dont ever
stand out from the crowd

do you really care what
other people think about you
does it really matter what they do
or what they say
you fought so hard to let 'em
throw it all back in your face
when their opinion never
mattered anyway

Dont let them try to tell you
how to live your life
dont let them hold you back
dont ever change your mind

chorus
Individuality
be proud of what you are
Individuality
dont let them cut you down
you can be whatever you want to be
but dont change your self for society
dont lose your individuality
dont lose your individuality
dont lose your individuality
