

Area 7, Showdown

I'm looking for an answer
To explain the things that I have seen
I'm looking for a reason
For why you did this to me
Another promise broken
Another knife in my back
I don't understand what goes on in your mind
Yeah you and I are heading for a showdown
Better watch your step, coz I'm ready for a showdown
The day will come when you fall
I'm watching everything you do
Don't underestimate me
Coz I'll be waiting for you
Another showdown and we'll leave it all behind
I don't understand what goes on in your mind
Yeah you and I are heading for a showdown
Better watch your step, coz I'm ready for a showdown (x3)
