

# Arena Tina, The Machine's Breaking Down

Arena Tina  
Strong As Steel  
The Machine's Breaking Down  
Proven patterns breaking down  
All controls gone underground  
We should have never come to this  
Yet here we stand  
Devoid of optimists

The machine's breaking down  
The machine's breaking down  
The machine's breaking down  
We set the wheels in motion  
Now we're caught in the commotion  
The machine's breaking down

Lebanon, Iraq, Iran  
Ethiopia and Afghanistan  
Religion and politics, plunder and rape  
While the weak cower down  
And pray for escape

The machine's breaking down  
The machine's breaking down  
The machine's breaking down  
We set the wheels in motion  
Now we're caught in the commotion  
The machine's breaking down

Addicts bent on self-destruction  
A billion dollars for the masters of seduction  
Despair and hope go hand in hand  
Charting the inevitable course of man  
Bloody images bounce off the wall  
As the satellite pictures tell it all  
While common goals and common ground  
Disappear as the world breaks down

The machine's breaking down  
The machine's breaking down  
The machine's breaking down  
We set the wheels in motion  
Now we're caught in the commotion  
The machine's breaking down

The machine's breaking down  
The machine's breaking down  
The machine's breaking down  
The machine's breaking down  
[Repeat to fade]
