

# Arena Tina, Wasn't It Good

Arena Tina

Don't Ask

Wasn't It Good

Wouldn't you know it I've lost my courage

Isn't that funny, me lost for words

Not that it really matters, 'cause I know you know

And you would have told me yourself if you could

Remember the first time, we met each other

You were in your world and I was in mine

Breaking down the barriers, we broke all the rules

But wasn't it good, wasn't it fine

While I took for granted, you took your time

Longing for love oh how we tried

It's over now that's understood, but wasn't it good

So long together, two would be lovers

Caring for flowers that just wouldn't grow

And in all of our tomorrows, we'll have yesterday

And wasn't it good, wasn't it fine

While I took for granted, you took your time

Longing for love, oh how we tried

It's over now that's understood

But wasn't it good
