

# Aretha Franklin, Jimmy Lee

All this time, I couldn't shake your memory  
And I never knew the sweetest love was the first  
So what am I supposed to do about this curse  
I've got you to blame  
And I'm calling, calling out your name  
Oh- he was so fine- Jimmy Lee -oh he was so fine  
Jimmy Lee  
Jimmy Lee  
Find me rushing off to school every morning  
Never had a care  
Acting crazy, always laughing when I'm running  
Cause I knew you'd meet me when I got there  
Stealing kisses in the hall, before the first bell  
You smelt so sweet  
Though we'd just met, I guess you knew me so well  
You had the number to my heartline  
Well, just between you and me  
He was the first one  
He stole my heart  
He ran like a bandit, I don't understand it  
Jimmy Lee, this one's for me  
And I'll always remember  
History, biology  
And that magical December  
Jimmy Lee, where can you be  
Can this song ever find you?  
Won't you please explain to me  
Why you left me behind you?  
Jimmy  
On the average twice a week, I think I'd see you  
On some avenue  
Someone laughs and shakes his head where you used to  
I guess I got myself a new screw  
I grew up and had my share of adventure  
Well, I've had some fun  
But you never need to question my intentions  
Cause each guy is just another rerun  
Well, just between you and me  
He was the first one  
He stole my heart  
He ran like a bandit, I don't understand it  
Jimmy Lee, this one's for me  
And I'll always remember  
History, biology  
And that magical December  
Jimmy Lee, where can you be  
Can this song ever find you?  
Won't you please explain to me  
Why you left me behind you?  
Well, just between you and me  
He was the first one  
He stole my heart  
He ran like a bandit, I don't understand it  
Jimmy Lee, this one's for me  
And I'll always remember  
History, biology  
And that magical December  
Jimmy Lee, where can you be  
Can this song ever find you?  
Won't you please explain to me  
Why you left me behind you?
