

# Aretha Franklin & Luther Vandross, Doctor's Orders

Hoppin', hoppin' till I'm energized  
'Cause I got something on my mind  
(What is it, baby?)  
So I, I said to my baby, leave the job early  
'Cause I got a thing for you that's killin' me  
(I like this stuff)  
You really know just how to thrill me  
You lay those pretty little words on me  
So I'll be the doctor, let me work on you  
(I'm ready)  
And then I'll prescribe the things we gonna do  
(Okay)  
The doctor's orders said, get some love  
Said you've been goin' without it long enough, long enough  
So here I am, boy, to hook you up  
And that's exactly what I'm dreamin' of  
(Ooh, boy, my boy)  
I love it when you get sentimental  
You can't be a no way but sweet and gentle  
You know what to do when the world falls in  
You give me the sweetest kind of medicine  
I'm wit' you, wit' you, baby  
One kiss from you would be  
The world sweetest kind of surgery  
So you'll be the doctor, boy, won't you be  
And write up a love prescription just for me  
(I'm hangin' wit' you, baby Hang with me, baby)  
I spoke to the main man at that love pharmacy  
So let me just tell you, exactly what you need  
I'll show you the directions but be sure you'll read the warnin'  
(Say, what?)  
Try two kisses and then call me in the mornin'  
(Okay)  
Doctor's order said, to get some love  
(Yeah, get it, get it)  
Said, you've been goin' without it long enough  
So here I am, girl, to hook you up  
And that's exactly what I'm dreamin' of  
(Ooh, girl, my girl)  
Fever, fever has got a hold on you  
I see a love fever and you can hardly make it  
I got fever, fever about a hundred zero two  
A love fever, fever and you don't think you can take it, help me  
Oh, it's hot  
(Say, oh, oh, oh)  
Oh, I'm burnin' with the fever  
(Oh, oh, oh)  
(The doctor said)  
What did he say?  
(To get some love)  
And  
(And I'm so, I'm so, I'm so in love with you, baby)  
You know you better be listenin' to what the doctor said  
I feel better now, I don't know how  
We did it, but we did  
Will you keep huggin' me and workin' me?  
And don't you ever quit it  
(Ooh, boy)  
So get out of bed the doctor said  
'Cause you're the cure I need  
For anything that's wrong with me  
I'm hangin' wit' you, baby  
(Hang with me, baby)  
The doctor's order said, get some love

(Hang with me, baby)  
Said, you've been goin' without it long enough  
(Stay right in, hang with me, baby)  
Here I am, boy, to hook you up  
That's exactly what I'm dreamin' of  
The doctor said, love, doctor said, love and get you some love  
Get to my love, get to my love, got to be love  
(Got to be love)  
So here I am, boy to hook you up  
And that's exactly what I'm dreamin' of, hey, hey  
The doctor's order said to get some love  
(When do you want it?)  
Says you've been goin' without it long enough, long enough  
(Oh, how do you want it)
