

# Aretha Franklin, The Only Thing Missin' (Furilla F

Woke up this mornin' to a perfect day  
I opened my window, heard a sparrow say  
Positive thoughts are runnin' through my mind  
Nothin' is wrong, feelin' real strong  
~Cause a new day is comin'  
The sun is shining  
The sun is shining  
The sun is shining  
The sun is shining  
The sun is shining, no clouds in view  
Lovers are holdin' hands, the world's brand new  
Everybody's smiling, summer's comin' through  
But the only thing that's missing is you  
Baby, baby, show me what do you do, when love is gone  
You count your blessings and you move on  
No, I ain't lonely, this ain't no sad song  
There's just one contradiction, I can't stand to be alone  
The sun is shining  
The sun is shining  
The sun is shining  
The sun is shining

The sun is shining, no clouds in view  
Lovers are holdin' hands, the world's brand new  
Everybody's smiling, summer's comin' through  
But the only thing that's missing is you  
I see your smile through your photograph  
The thing that you said still makes me laugh  
Deep inside, I'm on the edge of tears  
But I can't be cryin', sittin' around sighin'  
Just ~cause you're not here  
The sun is shining, no clouds in view  
Lovers are holdin' hands, the world's brand new  
Everybody's smiling, summer's comin' through  
But the only thing that's missing  
The only thing that's missing  
The sun is shining, no clouds in view  
Lovers are holdin' hands, the world's brand new  
Everybody's smiling, summer's comin' through  
But the only thing that's missing is you  
Only thing that's missin' is you
