Arghoslent, Rape Of A Slave

Come forth you shameless dark cunt Appeal to my mercy for your life I command the helpless dame Bound and shackled in chains

In secluded regions Atop mountain heights The mystic starlight The impurity of the night

Hear the crowd chant her name Pelting the peon with stones Devoid of nurture and care Lusting the vengeance of her stare

Orbiting flames greet the dark
The sounds of shackles commence
The androcentric gem of life
The fierce crack of the whip

Rape of a Slave
