

Ari Lennox, Smoke

Save all your fucks for me
I want all the smoke
Save all your fucks for me
Better not give that shit away

Guns out
My therapist done moved out of state
And I been sober
You got me 12 steps from catching a case

Fuck around find out (ooh)
Fuck around find out (I beg)
Fuck around find out
Fuck around find out (oh you tried it)

Come try now (oo)
Come try now (oo)
Fuck around find out (un)
Fuck around find out (I'm begging)

Save all your fucks for me
I want all the smoke
Save all your fucks for me
Better not give that shit away

Talk shit now
I might just slap a bitch in the face
It could blow up
You're lucky I'm just lighting my sage oh

Fuck around find out (I'm begging)
Fuck around find out (oo)
Fuck around find out
Fuck around find out (find out)
Come try now (try)
Come try now (oh try)
Fuck around find out
Fuck around find out (I'm begging)

Save all your fucks for me
I want all the smoke
Save all your fucks for me
Better not give that shit away

Try your mama
Try your father
Try Jesus but you better not try me
Try your brother
Try your sister
Try Jesus but you better not try me
