

# Ariana DeBose, Electric Energy (From Argylle) - f

Walking down the street  
Never looking for a fight  
All those bad boys call you freak  
Oh their mother thinks they're right  
Screaming for the glitter boys  
All the devils you employ  
All the things you fake  
All the ways you hate  
Give me your electric energy  
Let me feel that fire burning inside of me  
Oh oh oh oh  
Send it from my fingers to my feet  
Aim that light, and shine it down on me  
Electric Energy  
Come on take my hand yeah the temperatures rising  
We're turning up the heat baby you and me,  
So hold on to me tight cause the world is spinning  
Underneath our feet oh oh oh  
Screaming for the glitter boys All the devils you employ  
All the things you fake  
All the ways you hate  
Give me your electric energy  
Let me feel that fire burning inside of me  
Oh oh oh oh  
Send it from my fingers to my feet  
Aim that light, and shine it down on me  
Electric Energy  
Give it to me Give it to me Give it to me bad boy  
Give it to me sad boy Give it to me ghost boy  
Give it to me All the devils you employ  
And give me your electric energy  
Let me feel that fire burning inside of me  
Oh Send it from my fingers to my feet  
Aim that light, and shine it down on me  
Electric Energy
