## Ariana Grande, eternal sunshine

Ariana Grande prezentuje piosenkę "eternal sunshine" z płyty "eternal sunshine" (premiera 8 marca

I don't care what people say We both know I couldn't change you I guess you could say the same Can't rearrange truth I've never seen someone lie like you do So much, even you start to think it's true Ooh Get me outta this loop, yeah Yeah

So now we play our separate scenes Now, now she's in my bed, laying on your chest Now I'm in my head Wondering how it ends

I'll be the first to say, "I'm sorry" Now you got me feeling sorry I showed you all my demons, all my lies Yet you played me like atari Now it's like I'm looking in the mirror Hope you feel alright when you're in her I found a good boy, and he's on my side You're just my eternal sunshine Sunshine

So I try to wipe my mind Just so I feel less insane Rather feel painless I'd rather forget than know Know for sure What we could've fought through behind this door Hmm-mmm So I close it and move, yeah Yeah

So now we play our separate scenes Now, now he's in your bed, laying on my chest Now I'm in my head Wondering how it ends, ends, ends

I'll be the first to say, "I'm sorry" Now you got me feeling sorry I showed you all my demons, all my lies Yet you played me like atari Now it's like I'm looking in the mirror Hope you feel alright when you're in her I found a good boy, and he's on my side You're just my eternal sunshine Sunshine
