

# Ariana Grande, Higher

Been running round in circles  
Trying to find the end  
Bumped into this shy guy  
While chilling with my friends  
He's eying me, sizing me  
Makes my body weak  
He's bringing out the freak in me

It's only been a minute  
Since he came in  
And changed my life  
When I get around you  
I feel this spark ignite

I got that fire  
You got me open  
You take it deeper  
We take it higher  
I got that fire  
You got me open  
You take it deeper  
We take it higher

Crazy what we're doing  
Living, letting go  
We're out and having good times  
And no one has to know  
He's eying me, sizing me  
Makes my body weak  
He's bringing out the freak in me

It's only been a minute  
Since he came in  
And changed my life  
When I get around you  
I feel this spark ignite

I got that fire  
You got me open  
You take it deeper  
We take it higher  
I got that fire  
You got me open  
You take it deeper  
We take it higher

We got that jam, make them dance  
Make them lose their minds  
We got that jam, make them dance  
Make them lose their minds  
We got that jam, make them dance  
Make them lose their minds  
We got that jam, make them dance  
Make them lose their minds

I got that fire  
You got me open
