

# Ariana Grande, West Side

I don't wanna think too much  
I just wanna feel  
You know that it ain't no rush  
Let me keep it real

Just let me be in your life like that  
In your life like that  
I'll bring the light right back  
I'll bring the life right back

I m gonna make you want more  
I am gonna be yout new favorite  
Tell tchem you closing the door  
I am the only for sure

Hold up, there shouldn't be no hold up  
There's more love if you follow emotions  
Show up, now if you down to roll up  
Meet me on the west side for me  
Hold up, there shouldn't be no hold up  
There's more love if you follow emotions  
Show up, now if you down to roll up  
Meet me on the west side for me

Don't want it if you ain't your touch  
It's better every time we chill  
You ain't gotta bring no stuff  
We got all we need right here

Just let me be in your life like that  
Be your wife like that  
I'll bring the light right back  
I'll bring the life right back

I m gonna make you want more  
I am gonna be yout new favorite  
Tell tchem you closing the door  
I am the only for sure

Hold up, there shouldn't be no hold up  
There's more love if you follow emotions  
Show up, now if you down to roll up  
Meet me on the west side for me  
Hold up, there shouldn't be no hold up  
There's more love if you follow emotions  
Show up, now if you down to roll up  
Meet me on the west side for me
