

Arid, All I Did (Was Get Close To You)

You may strike me down in anger
You may hold a different vice
You may talk about me
Spreading around your foolish lies
You may say it all comes
Down to just one thing
You either take it
Or you leave it
And bear the consequence it brings
I've kissed the lips of angels
I've mingled with the fools
Lord knows how I've tried
Living by your rules
I've walked with the restless
They don't get much sleep
I've made another promise
One I could not keep
You may strike me down in anger
You may burn me with your eyes
You may talk about me
Spreading around your foolish lies
You may say it's all or nothing
And that there's no in-between
And all I need to do is focus
And stop living in a dream
I've tried to make a difference
I knew that would not last
While trying to move forward
I got caught up by the past
All I did was get close to you
All I did was get close to you
All I did was get close to you
All I did was get close to you
Can? Can I take it?
Can I ? Can? Will I try to
Break away from you?
I've kissed the lips of angels
I've mingled with the fools
Lord knows how I've tried
Living by your rules
All I did was get close to you
All I did was get close to you
All I did was get close to you
All I did was get close to you
Sing with me, sing with me
Sing with me, sing with me
All I did was get close to you
All I did was get close to you
