

# Arid, Right This Time

Sudden as the day arrives  
To wash away the night  
Soon you grab a hold of me  
Here tonight  
When all hope has left your eyes  
And you can no longer see  
I will be there by your side  
Faithfully  
I will see the light in you  
I will find a way  
I will find the heart in you  
When you fail  
I know that the darkness will  
Will amount to light  
I will keep your secret safe  
Here tonight  
I will see the light in you  
I will be your guide  
Open up your heart to me  
You will find  
Right this time  
I will see the light in you  
I will find a way  
I will find the heart in you  
When you fail  
Sudden as the day arrives  
To wash away the night
