

Ariel Pink, Are You Gonna Look After My Boys?

Are you gonna look after my boys?
Are you gonna look after my boys?
And after my baby
So she don't run off with my soul boy

And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run out with my soul boy

Nancy, this is the last time I call
Before I leave home
And Nancy, there's a check under the door
You volunteered, it was your choice

And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run out with my soul boy
And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run off with my soul ah

Nancy, you know my daughter needs a will
She's always dying, oh no
And Sammy, he's always late coming to school
And his brain is full of hate
I don't think that I can take it

Look after my boys
Are you gonna look after my boys?
And after my baby
So she don't run out with my soul babe
And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run off with my soul girl

They ain't gonna hurt you, though

Nancy, don't forget to lock the gate after midnight
'Cause Nancy, you know my mother's getting gray
She'll take the boys so far away
And I'll be alone

Are you gonna look after my boys?
Are you gonna look after my boys?
And after my baby
So she don't run out with my soul girl
And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run off with my soul boy

And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run out with my soul
And after my boys
Are you gonna look after my boys?
And after my baby
So she don't run off with my soul boys
