

Ariel Pink, Higher And Higher

i want to get higher and higher
don't wanna stop reaching for the top
and don't wanna bow too low to the ground
don't wanna be in between the moment
just wanna chase my high all around

higher and higher
higher
and higher and higher
oh, ask me how high i can go
i don't know

higher and higher
don't wanna take my time away
just wanna take my drugs today
don't wanna sit and think of the time
just wanna dance and handle my mind

higher and higher
higher
desire desire
don't ask me how high does it go
i couldn't know

higher and higher
i want to get higher and higher
don't wanna stop reaching for the top and
don't wanna bow too low to the ground
don't wanna be in between the moment
just wanna chase my high all around

higher and higher
higher
higher
higher, higher than the sun
higher than the atmosphere

higher and higher
i want to get higher and higher
don't wanna take my time away
no, no
just wanna take my drugs today
don't wanna sit and think all the time
just wanna dance and let go my mind

higher and higher
higher
higher desire
higher
highers desire

ask me how high i can go
i don't know
higher and higher

i like my head when it's too high to see
i make my way so far in the rain
don't wanna stop doing all my lines
don't wanna ever stop gettin' so high

higher and higher
higher
higher desire
higher

desire desire

don't ask me how high
did you know
i get low
high
