

# Ariel Pink, Something Isn't Something

If I told you that something was wrong and you know  
And you ask me what is wrong I don't know  
But if something isn't something is nothing?  
Well if something isn't something is it nothing?

Now I've written 1001 of these songs  
But don't ask me about something to say  
Cause if something isn't something is it nothing?

Don't ask something but not mean something kind?

In a story where people will lie to each other  
Is there really anyone to blame?  
Cause if something isn't something is it nothing?

This life I can't do you, I got to start something  
If I say that something aint me

Don't ask something nut not say something kind, oh kind  
don't ask something but not ask something kind, oh kind
