

# Ariel Pink, Thespian City

And we started to act  
Like fools we acted  
We acted like fools  
Didn't we like it  
Everybody liked it

Tell me - what's up with all the groups  
around these days  
Lemme just say I think it's such a shame  
How all the bands always play live  
and people pay  
To see these phonies on stage who only imitate key  
Rock n' roll is dead, it's all in your head

Now all the real music lives underground  
It's living on tape  
It's lost & found  
And while everyone's going downtown to escape  
I'm under headphones in my brain with a gun in my mouth  
that's how you do it, do it clown!

Performers are dull  
just guys with guitars  
singers and drummers  
they wanna be stars  
pretending to rock cause they know what it means  
pretending to be  
thespian, thespian  
pretending to be me  
that's T H E S P I A N C I T Y
