

Arlibido, Jello

Just half a dollar bill and I can watch you wiggle
In my frosty closet and I know just how you'll feel
Last chance, but I can't dance, but I can't dance
So I get to be home with you
Can't get it downtown so I gotta stay here
Not really solid not really liquid
Jiggle when I feel it
Get you when I need it
Stir you up and chill you out
I'll slide you between my lips and
watch you wiggle, wiggle around
I'll be careful not to spill 'til I can watch you wiggle
Silky, slippery, paradise- that's just how you feel
My last chance, but I can't dance, but I can't dance
So I get to be home with you
Can't get it downtown so I gotta stay here
Purple GREEN! and yellow, blue is when I'm mellow
Get it on my fingers, scent it kind of lingers
Stir you up and chill you out
I'll slide you between my lips and
watch you wiggle, wiggle around
Last chance, but I can't dance, but I can't dance
So I get to be home with you
Can't get it downtown so I,
Gotta stay, gotta stay, gotta stay here
watch you wiggle, wiggle around
