

# Arlo Guthrie, Satellite

words and Music by Arlo Guthrie

I'd like to tell you a story  
For just a minute or two  
And if you don't want to hear it  
Just be quiet if some others do  
I'd like to get me a satellite  
Way up over the world  
And say hello everybody and you too girl

This is me your friend A.G.  
Speaking to you from above  
Here in the land of America  
Sending everybody love  
I'd like to tell the whole world  
In every foreign land  
Today looks like a day for holding hands

Today ain't nothing special  
It's just an average day  
But we could get together  
And watch the children play  
Tomorrow will be soon enough  
To return to blood and guns  
Let's just take the day off and have some fun

Today we tell the hungry  
That food is on the way  
Today we tell the sick ones  
That soon you'll be okay  
Today we tell the prisoners  
That soon you will be free  
Don't no one take this microphone from me

And while I'm up here honey  
I got a message for you  
I know I've got just a little while  
So let me end it through  
The whole world's dancing 'round and 'round  
Like a universe of fools  
And ain't it wonderful to see  
A day that breaks the rules  
Like a day that's made for me and you  
Oh ain't it wonderful to see  
A day that breaks the rules  
Like a day that's made for me and you
