

Armagedda, Emperor From The Eternal Dark

The emperor from the eternal dark

I'm thee worthy

The spiritual war is here, I can see through my sense

We are waiting for the moment, to kill or be killed

He is heavens damnation

Take part of His devilish creation

Before Jesus will take part of you

The dark is carrying the strength

That will lead the life to it's end

I am supporting the army of mayhem

Bringing fatal diseases to the world

Death will leave you to your destiny

We are heavens damnation
