

# Armageddon, Burn The Sun

Sleepless nights, you're counting the days  
We're heading your way  
Waiting for the time to let it all out  
All that you're holding inside

People who say, you're wasting your time  
They'll never understand

Here we come  
We'll burn the sun  
Together again

Feel the tension, it's building up  
Ready to explode  
Adrenaline rush as we hit the stage  
Let the music take control

We're flying high  
The spirit is strong  
Together again  
You can't hide the feeling inside
