Armageddon, Heart Of Ice

Steel blue eyes, so damn cold Iron hard conviction, tar black soul She gets around, yes she does... Ain't no angel in white Child of sin, raised under neon lights

Claws down my back... hot breath on my neck Mmmm... She's tightening her grip, around my heart Got ways to make me stay, brings me to my knees To crawl into the shadows, and beg for more

Iron hard conviction... Heart of Ice Tar black soul... Heart of Ice
