

Armin Van Buuren, Big Sky

I know this silence - been here before
Im walking blinded through your door
This is a sense of things to come
This innocence
Oh, Oh
Breath in this moment - its come and gone
Further and faster through your soul
Open your eyes, embrace the dawn
Open your mind
Oh, oh
Release yourself - its a big sky
Reveal yourself, its a big sky
We love, we live, we take, we give
Release yourself - its a big sky
Its a big sky
Its a big sky
Its a big sky !
