

# Armin Van Buuren featuring Justine Suissa, Burn

For each forgotten kiss  
For all the memories  
For all the times in love  
Said all we had to say  
You played your part so well  
A modern Romeo  
You came on Cupid's wings  
And then you flew away  
When you touched my face  
When you call my name  
I'm burned with desire  
When you touched my face  
When you call my name  
I'm burned with desire  
But you left me in the rain  
For every sleepless night  
Forever in your arms  
For every hour spent  
Lost in the revery  
You broke your promises  
No shame and no regrets  
You burned the bridges to  
An endless mystery  
When you touched my face  
When you call my name  
I'm burned with desire  
But you left me in the rain  
When you touched my face  
When you call my name  
I'm burned with desire  
When you touched my face  
When you call my name  
I'm burned with desire  
But you left me in the rain
