

Armor For Sleep, Raindrops

You appear like raindrops
And leave like you sink through
The streets that you fall on
The cars that slip on you
All of this for just one night

Suffocate me, all you need,
I wont breathe but its okay
Youll be somewhere around me
And I wont need air

The clouds will break my house
And throw me from my room
Ill drown in the rainfall
And float till I find you

You appear like raindrops
And leave like you sink through
The streets that you fall on
The cars that slip on you
All of this for just one night

Suffocate me, all you need,
I wont breathe but its okay
Youll be somewhere around me
And I wont need air

And I wont need air
And I wont need air
And I wont need air
And I wont need air

Suffocate me, all you need,
I wont breathe but its okay
Youll be somewhere around me
And I wont need air

Suffocate me, all you need,
I wont breathe but its okay
Youll be somewhere around me
And I wont need air
