

# Armoury Show, We Can Be Brave Again

If I could believe  
If I only could see another way  
I would sail away

On ship with things  
From which to gaze  
Across the waves

But I'm without you  
Through the heartland

We can be brave again  
Stand up you fool  
Forevermore - forevermore

If I only could see  
If I did not deceive your shelter  
I would build bridges with a care  
We could kiss forever there

But I'm without you ...

Get on get up off the floor  
Here it comes now  
Here it comes again
