

Armsbendback, Primera (Last Goodbye)

You can figure out what's wrong when I'm long gone
This is better off open ended then finished

You gave me nothing good but silence
You help me find my way

This is my last good bye

Be glad I walked away in silence
I hope you find your way

This is my last good bye

You can't stop me, you can't

This is my last good bye
(I am okay it's better this way)
