

Army Of Anyone, Disappear

Let's not go outside
too much work's in here
heaven can't help us
Watch the walls knocked down
Jesus lost his crown
heaven
must help us

Don't look
don't look at me
I watch how the world works in here
I love how the world works in here
Yeah

I try to disappear
Can't you see what I'm sayin'
I try to disappear
Can't you see what I'm sayin'

Hearts melt with lies
Feeling ostracized
they won't just help us
Mourning makes us cry
Singing last goodbyes
no one can help us

Don't look
don't look at me now
I watch how the world works through here
I love how the world works from here
Yeah

I try to disappear
Can't you see what I'm sayin'
I try to disappear
Can't you see what I'm sayin'

I try to disappear
Can't you see what I'm sayin'
I try to disappear
Can't you see what I'm sayin'
