

# Army Of Anyone, Disappear

Let's not go outside  
too much work's in here  
heaven can't help us  
Watch the walls knocked down  
Jesus lost his crown  
heaven  
must help us

Don't look  
don't look at me  
I watch how the world works in here  
I love how the world works in here  
Yeah

I try to disappear  
Can't you see what I'm sayin'  
I try to disappear  
Can't you see what I'm sayin'

Hearts melt with lies  
Feeling ostracized  
they won't just help us  
Mourning makes us cry  
Singing last goodbyes  
no one can help us

Don't look  
don't look at me now  
I watch how the world works through here  
I love how the world works from here  
Yeah

I try to disappear  
Can't you see what I'm sayin'  
I try to disappear  
Can't you see what I'm sayin'

I try to disappear  
Can't you see what I'm sayin'  
I try to disappear  
Can't you see what I'm sayin'
