

Army Of Lovers, Supernatural

Light in the tunnel I find my way home
Spirits have flown
Waving goodbye to material things
From angel wings

Back to nature my return
Change of heart the skin is burned
Found a cure I'm all hooked up
Meditate on a mountain top
Born again to contemplate
Powerfield I can create
Flying high on a wave of love
Supernatural

What can I say what could I do
I'm still with you
Supernatural
Tell me you see tell when you dare
Go everywhere
Supernatural

Deep in the forest I fight to protect
Nature's respect
Over the ocean and under the sky
Learning to fly

Secrets hidden pollute your mind
Open spaces are there to find
Voices tell I stood the test
Walk transparent I'm obsessed
Make a move let your mind feel free
Stepping outside reality
Flying high on a wave of love
Supernatural

What can I say what could I do
I'm still with you
Supernatural
Tell me you see tell when you dare
Go everywhere
Supernatural
