

# Army Of Lovers, When The Night Is Cold

I want to break out  
I want to break out from this trap I'm in

I want to shake out  
I want to shake out all this talk of sin

But when the night is cold  
Protect my heart and soul  
Keeping our mystery alive

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive when the night is cold

But then a friend of mine was called one day  
I knew there couldn't be another way  
I'll hold you tight  
I'll hold you tight when the night is cold

Love and devotion  
Love and devotion may be news to you  
Sincere emotion  
Sincere emotion has to last all through

But when the night is cold  
Protect my heart and soul  
Keeping our mystery alive

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive when the night is cold

But then a friend of mine was called one day  
I knew there couldn't be another way  
I'll hold you tight  
I'll hold you tight when the night is cold

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive when the night is cold

But then a friend of mine was called one day  
I knew there couldn't be another way  
I'll hold you tight  
I'll hold you tight when the night is cold

I never thought they could be serious  
With all this talk about a threat to us  
Staying alive  
Staying alive when the night is cold

But then a friend of mine was called one day  
I knew there couldn't be another way  
I'll hold you tight  
I'll hold you tight when the night is cold
