

AromaHue, Closer

Come to me closer
For all the times you left me a side
I want to forgive you
But it doesn't matter anymore
I've never been mistreated? like that time

I've been wondering for such a long time
Searching for love that you've killed

Chor. I've found the way out
From the darkness into the light
You've helped me get there
Through the pile of pain and misery

Come to me closer
you will not resist my love this time
but now I will show
how it feels to bleed a poisoned heart
the more I will be hurting you
your love will grow

Now you start to search for, what's been lost
I've met my end
Here I stop!

Chor. I've found the way out...
