

# ArrDee, Hello Mate (ft. Kyla)

Do you mind if I take you home tonight?  
Stay another day, if that's okay (Whyjay)  
Tell me, baby  
Would you mind if I take you home with me  
Where no one can see? (It's Tekky)  
So don't be shy

We get wavy, smashed  
Sun comes out, splash  
She likes my style, ain't flash  
On the vibe, I'm runnin' the gaff  
We don't take it slow, full speed till we crash  
Mad at the price of the tab  
Hello, mate, you wanna levitate?  
Come see the man with the plan

We get wavy, smashed  
Sun comes out, splash  
She likes my style, ain't flash  
On the vibe, I'm runnin' the gaff  
We don't take it slow, full speed till we crash  
Mad at the price of the tab  
Hello, mate, you wanna levitate?  
Come see the man with the plan

Baby, if you'd like to spend the night  
It's alright, but you've gotta check out in the morning  
I ain't gonna be there snoring  
I'm a slaughterer and I'll keep on slaughtering  
I get good girls movin' appalling  
Bad girls and I still put it all in  
Posh girls, but they don't move borin'  
Chav girls go "cool!" when ArrDee callin'  
I don't care myself I'm chavvy  
I meet blue-tick girls in the alley  
Still pally with Meghan and Maddy  
I'll bottle the boyfriend, leave with the baddy  
Scatty, day and night  
You could roll with the boy if you play it right  
I got a girlfriend, baby, you crazy, right?  
She told me there's one thing playing in her mind  
She said

Tell me, I need to know  
Where do you wanna go? (It don't matter, come roll)  
'Cause if you're down, I'll take it slow (We don't take it slow, no, no)  
Make you lose control

We get wavy, smashed  
Sun comes out, splash  
She likes my style, ain't flash  
On the vibe, I'm runnin' the gaff  
We don't take it slow, full speed till we crash  
Mad at the price of the tab

Hello, mate, you wanna levitate?

Come see the man with the plan

Forget "ArrDee", call me "The Guv'nor"  
"The Gaffer", the "Big Boss Buster"  
Meaning I get what I want, want lustre  
I don't window shop  
Woke up to the chick like "S'appenin', darlin'? Tell me your name"  
Don't ask for mine, I hate that game  
If I guess your sign, that's worth at least brain  
Even if I'm wrong, have your birthday changed  
I like your style, you got an attitude  
We'd be great, let me fill you with gratitude  
She's smilin' like "You know what my man'll do?"  
I said, "Damn it, babe, I don't have a clue"  
Know what rappers do  
Now imagine that, but with double the magnitude  
Said, "I ain't a fan of you  
But you're fit and I'm dumb  
I thought I could baffle you"  
Tell me

Tell me, I need to know  
Where do you wanna go? (It don't matter, come roll)  
'Cause if you're down, I'll take it slow (We don't take it slow, no, no)  
Make you lose control
