

Art Rush, She's A Busy Man

She's a busy man honey
She got lots of toys
She's a super girl baby
Everybody loves her

He can count the girls he's been with
On one hand with two to spare
She's got a marching band
playing in the rain
with a copter in the air

At the dentist at age five
Some guy with a shotgun
stormed the building
The cops barged in
to the waiting room
And told her to get down
She had to hide under the chairs
She wasn't scared
but she was ever bored

She's a busy man honey
She got lots of toys
She's a super girl baby
Everybody loves her

He can count the girls she's been with
On one hand with two to spare
She's got a marching band
playing in the rain
with a copter in the air

They met when they were ready for it
And not a minute before
While her marching band played on
The rain began to pour
The helicopter arrived and skimmed the trees just fifty meters above
He's pretty sure she's been in love

He said I'm 16 in May
And I'm all covered in slime
She said I'm 18 in April
Help me pass the time

Y'know I like 'em warm
Y'know I like 'em hot
Y'know that people in Madrid
would kill for what I got
So get in my helicopter
and catch the bus downtown y'all
Maybe the 506 (uh)
I make records but I don't play tricks
I make records but I don't play tricks
She cuts up a banana
and she puts it on her Weetbix

She's a busy man honey
She got lots of toys
She's a super girl baby
Everybody loves her

He can count the girls she's been with
On one hand with two to spare

She's got a marching band
playing in the rain
with a copter in the air
