## Arthemis, We Fight

We will fight, we won't fall! The end will never come The pain won't last forever The war has just begun We stand and fight together

The roaring lightning strikes The freedom flag will burn This faith and sacrifice We're gonna pay with blood

It's time to say NO MORE No matter 'cause we fight

The world is overloaded It's time for REVOLUTION So let the truth be told It's time for retribution

We know we're not alone There's no more need to cry STAND UP We're not afraid to die

It's time to say NO MORE No matter 'cause we fight We'll never walk alone Ready to strike

From the Moon to the Sun can you hear the roar We will fight we won't fall From the east to the west can you hear the call We will fight we won't fall Open your eyes and tell 'em down We will fight we won't fall You gotta have no fear, justice for all We will fight we won't fall

WE FIGHT
