

# Arthur Russell, You Can Make Me Feel Bad

You can make me feel bad if you want to  
I don't need those things you said  
I was, I can live in my own  
There's a place for us in the real world  
You can make me feel bad if you want to  
You can make me feel bad  
I don't need those things you said  
I want, I can live in my own  
There's a place for us in the real world  
You can make me feel bad if you want to
