

# Article One, Heaven Let Me Know

Believe me my friend of many years  
Of late I've been crying many tears  
Do my sad eyes give it all away?  
Believe me my friend I'm feeling low  
If anyone I thought that you should know  
So can I stay, just a little more?  
Hold onto me, like I hold on to you  
Or maybe it's the other way around  
And either way, I'll stay next to you  
I've heard there's a man who walked on waves  
He lifted the dead up from there graves  
How can it be? I don't know  
He lived all his life for you and I  
Right until the day that he died  
And I'm still free to choose my love  
Hold onto me, like I hold on to you  
Or maybe it's the other way around  
And either way, I'll stay next to you
