

Artifact, New Messiah

If you could see me now
You'd walk away
Pierce through my soul
It's here to stay

Almost threatening, my hands are witching
Can't resist the urge
Demons longing, for my belongings
Can't resist to purge

Reign, my new Messiah
Reign, my new Messiah
Why have you come?
My New Messiah

Can you feel the pain
Inflicted by my hands
Voices in my head
Demons found my bed

Getting closer, feel me breathing
Can't resist to kill
Slowly fading, almost dying
Can't resist my touch

Reign, my new Messiah
Reign, my new Messiah
Why have you come?
My New Messiah

Can you even feel the pain
Inflicted by my hands
Can you even feel the pain
Inflicted by my hands

Can you even feel the pain
Inflicted by my hands
Can you even feel the pain
Inflicted by my hands
