

# Artrosis, Delusion

In the old stairway  
In the streams of rain  
Your love is imprisoned  
It's got only one queen  
Golden heart  
You laid at its feet  
Had cracked before you understood  
It will destroy you  
With each step  
With each gesture  
It will destroy you  
With each word  
Bewitched by its melody  
You drink off sounds  
Deluded by a failure  
You tempt fortune  
From joy to suffering - short way  
You'll defeat it  
Though you know the end
