

Asa, Subway

Everyday
Everyday is not a holiday
My life's like a subway
Oh, I know this love don't last
Look at me, tell me what you see
Do you believe this love is real?
I know this love don't last
I have come from far away to see this go down the drain
I have waited patiently and this is what I get
Emotionally failing me
My whole wild world is caving in
I'm not so free to express myself
But the woman in me, don't fade away
My mama say baby be careful
If any body comes to say I love you
My papa say baby I warn you
If anybody comes to say I love you
Now you asking me to trust you
Tell me how am I supposed to
When I know this love don't last
Could this be the kind of love
That my mum use to warn me about?
How will I know that this love will last?
I have come from far away to see this go down the drain
I have got so much to give but don't know what I'll get
Emotionally failing me
My whole wild world is caving in
I try so hard to express my self
But the woman in me don't fade away
My mama say baby be careful
If any body comes to say I love you
My papa say baby I warn you
If anybody comes to say I love you
Feel it, you feel it
Feel it, you feel it
My mama say baby be careful
If any body comes to say I love you
My papa say baby I warn you
If anybody comes to say I love you
My mama say baby be careful
Because I love you and I won't hurt you
My papa say be careful 'cause I warn you baby
'Cause I love you, baby I warn you
