

Aselin Debison, Centre Of My Heart

winter is you
your smile and tender touch
the dreams you helped come true
the way you changed my life so much
do you recall, the vow of love we made
when hope was all it took
to be strong and not afraid

I think of how we were and i feel blessed
the moments that we shared
they were the very best, yeah

Chorus:
and we danced among the clouds
sailed the milky-way
far from the jostling crowds
we'll fly away
when christmas brings its cheer
ill always no somehow your near
cuz no matter were you are
you'll always be
in the center of my heart

i see you face
way deep inside my eyes
still bathed in starlights grace
our loves a faith that never dies
the north star burns
It has a twinkle bright
and all the chill with in
you could be here tonight

our truth can lift us up
from all time and space
our loves a bond too strong
for distance to erase, yeah

Chorus:
and we danced among the clouds
sailed the milky-way
far from the jostling crowds
we'll fly away
when christmas brings its cheer
ill always no somehow your near
cuz no matter were you are
you'll always be
in the center of my heart

you gave me the gift of flight
to see an endless horizon, yeah
to know the gift to go within
to a place no one else can see
a gift to navagate the stars of life
to know love when it comes
the gift of knowing who I am for it to be

Chorus:
and we danced among the clouds
sailed the milky-way
far from the jostling crowds
we'll fly away
when christmas brings its cheer
ill always no somehow your near
cuz no matter were you are

you'll always be
in the center of my heart

you'll always be in the center of my Heart
