

Ash, Dancing On The Moon

I am nearly confidence full
I'm scared to sing in the shower
But now I'm singing to you
You, you just appeared out of nowhere
You pick me up without me knowing you
You shot me up into the atmosphere

[Chorus:]
Hey look at me
Dancing on the moon
I've got a girl so sweet
She got me back in tune yeah
Now I'm floating, floating about in love

Up up and away
I've got a good feeling
A feeling that I believe in
It's gonna stay with me always
Let's go
We'll go swimming in the starlight
Diving down until we unite
Take me further than I've ever been before

[Chorus]

Alright

[Chorus]

Wow baby you're the one for me
You've got a smile that shines
A smile that now is mine yeah
Keep it flowing
Baby keep it falling
Fall further
Flowing into heaven
Keep it floating
Floating about in love
