

# Ash, Don't now

You said you were doing nothing  
Call me up you're doing nothing  
You never know what is happening  
At all now  
Pull the sofa over and watch the  
Television glowing on into the night  
All you said you were doing nothing  
Phone me up you're doing nothing  
You wanna go out and do something  
You just don't know what is happening  
Do you know  
Walk into town and wonder about  
And stop then wonder what you're doing  
You're doing nothing nothing at all  
You're just doing nothing
