

Ash, Everywhere Is All Around

The dust the world has gained is washed away like rain
Some stains cannot be moved- mistakes you cannot lose
But the circle never ends- it comes round again
Round and round and round and round

[Chorus:]

Everywhere is all around- find it if you can
Make the most of what you've found
Keep it with your plans

Kid twist took the fall from the half moons sixth floor
We know what we are- and what you thought you saw
The half moons secret lies in Buggy Siegal's eyes
It's what we bring to those who sing

[Chorus x2]
