

# Ash, I Started A Fire

i start a fair 'n weather together and  
no burns other control  
i want you bad  
i need you bad

i leave an precipice and  
i'm falling to bye  
for your love  
i want your love

i went to see you so  
falling than known

i look in you i see blue and  
said away my hurt i know  
you're the one  
you're the one
