

# Ash, Shadows

In case I never get to see you again  
I don't get time to work things out  
No time to make amends  
Went to my soul chasm  
Of the great words left unsaid  
For you have been a part of me  
But if it were to end  
I'm talking 'bout  
Shadows, filling my heart and  
Swallows chasing the dark  
I gotta  
Find you before too long  
I gotta  
Tell you what's been going wrong  
What's been going wrong  
All these feelings welling up  
In a silent reservoir  
In the dark recesses of my heart  
I'm not the same person anymore  
I can't look you in the eyes  
No longer hold your gaze  
I've been living in my head for months  
How come these things change?  
I'm talking 'bout  
Shadows, filling my heart and  
Swallows chasing the dark  
I gotta  
Find you before too long  
I gotta  
Tell you what's been going wrong  
What's been going wrong  
Talking 'bout  
Shadows, filling my heart and  
Swallows chasing the dark  
I gotta  
Find you before too long  
I gotta  
Tell you what's been going wrong about  
Shadows, filling my heart and  
Swallows chasing the dark  
I gotta  
Find you before too long  
I gotta  
Tell you what's been going wrong  
What's been going wrong  
What's been going wrong  
What's been going wrong
